

MGL Avionics *Stratomaster Aviation Headsets*

The MGL Avionics aviation headsets offer exceptional value for money. The microphone is a noise canceling type designed to operate in place of carbon and amplified dynamic microphones. The headsets feature:

- Stereo and mono operation
- Soft silicone gel filled earcups
- Gold plated Headphone and Microphone plugs
- Metal swivel gooseneck and metal microphone boom
- Extremely light and strong at only 15oz / 425g
- Excellent passive noise reduction rating of 27dB
- Clear frequency response of 20-17,000Hz distortion free through entire range
- Adjustable open foam cushioned headband
- Quick response electret microphone with wind muff
- Noise canceling filter amplified electret microphone
- Conforms to FAA TSO C57a and TSO C58a

Volume Control

The headset features two volume control knobs. The first knob is used to select between stereo and mono operation, and select the volume level of the one earphone (if stereo operation is selected). The other knob is used to control the volume level of the other earphone in stereo mode, and both earphones if mono mode is selected.
